Is there a significant information technology component to this project?	
Yes	No
If you answered yes, please inform your CIO to obtain advice and support of your IT needs.	

PLAIN LANGUAGE ABSTRACT

Please describe the proposed project using non-technical language emphasizing the research question and its importance to health care delivery. If you receive the award, **this summary description will be posted on the IFPOC public website and will be included in press releases.** Ensure that your description can be understood outside your research field. – maximum 1250 characters

What is the innovation and main question or hypothesis for this proposal? Please clearly state the research question being asked and justify its importance based on the current status of published knowledge – maximum 1250 characters

Please describe how this project will influence the healthcare system or influence patient care? – maximum 1250 characters

Please describe your knowledge translation plan for the results of this project (how will you share/ disseminate your results and/or spread your innovation)? – maximum 1250 characters

Amount being requested from Innovation Fund (maximum \$100,000/year for 2 years)		
Year 1	Year 2 (if applicable)	Total
\$	\$	\$
Is this Project Proposal a continuation of a previous Innovation fund funded project?		
Yes	No	
If YES: please provide the title, dates and project leads for the previous IF project		
Date (dd/mm/yy)	Title	Project Lead(s)
Is this Project Proposal coordinated with and/or dependent on another AFP Innovation Fund Project?		
Yes	No	
Can this project proceed without funding form the other project?		
Yes	No	

If NO, which one:

Name of Project Lead	Name of Project at Other Institution

If the other applicants are unsuccessful, can this project stand alone?

Yes No

Will this project receive funding from any other source than the IF? – including cash or in-kind contributions?

Yes No

If answered YES, please specify by source and amount anticipated or already committed:

Background, Objectives, Rationale, Significance, and Justify why the project is innovative – continued

Team – maximum 2000 characters

Please include the names and affiliations of the team members, with a brief statement of their roles, experience (are any early career investigators?), area(s) of expertise, time commitment and planned contributions to the project

Approach and Work Plan – maximum 4000 characters (up to approx. 3000 characters on this page, and the balance on page 13)

Provide a description of the approach to be used as well as a detailed project work plan.

*You may cut and paste diagrams, graphics or images to this section but cannot exceed the three page limit for this section. Do not provide any additional attachments to your application. If you do, they will be ignored and not provided to the reviewers.

Approach and Work Plan – Continued.

Timeline – maximum 1300 characters

Provide a target start date, the dates when each milestone will be completed and the target finishing date for the project

*You may cut and paste diagrams, graphics or images to this section but cannot exceed the three page limit for this section. Do not provide any additional attachments to your application. If you do, they will be ignored and not provided to the reviewers.

Project Outcome Evaluation Metrics – maximum 2700 characters

Detail the anticipated outcomes and how these outcomes will be measured. Which measurement will determine success? How will you measure it? What is the expected benefit and how will it be measured? How will the IFPOC determine if the project was successful?

*You may cut and paste diagrams, graphics or images to this section but cannot exceed the three page limit for this section. Do not provide any additional attachments to your application. If you do, they will be ignored and not provided to the reviewers.

Additional Project Funding (only if applicable) – maximum 2000 characters

Elaborate on any supplemental funding for the proposed project including amount and source and as well as any contingencies or other special circumstances.

Other Relevant Information (optional) – maximum 2000 characters

Please elaborate on any other items you think important or relevant to the implementation or outcomes of this project.

*You may cut and paste diagrams, graphics or images to this section but cannot exceed the three page limit for this section. Do not provide any additional attachments to your application. If you do, they will be ignored and not provided to the reviewers.

Has this Project Proposal been submitted and been unsuccessful in a previous innovation fund competition?

Yes

No

If YES, please provide a detailed response to the specific comments/feedback from reviewer(s) in the past competition – maximum 2000 characters

List of References and/or Support from Partners (optional) – maximum 8000 characters (up to 3000 characters on this page, up to 3000 on page 18 and the balance on page 19)

Please list references or attach any letters of reference into this section.

*You may cut and paste diagrams, graphics or images to this section but cannot exceed the three page limit for this section. Do not provide any additional attachments to your application. If you do, they will be ignored and not provided to the reviewers.

HAHSO REQUIREMENTS

Practice Plan Information and Approval

Physician Association of the Project Lead (Select your physician association from the drop down menu)

The principal investigator (project lead #1) confirms that their physician association has reviewed this proposal and authorized its submission into the competition. It is not necessary to physically obtain an approval signature from your physician association.

Yes

Grant Administration

Are there any resource Implications for the Hospital or the University?

Yes

No

If you answered YES, please describe – maximum 1000 characters

If successful, which research accounting department will administer the grant?

Hamilton Health Sciences

McMaster University

St. Joseph's Healthcare Hamilton

Relevant approvals to be sought after notification of grant approval and funding HAHSO and IFPOC on behalf of MOHLTC

Human Ethics

Animal Ethics

Patient Consent

Bio-Hazardous Materials
